To Whom it concerns:

I am happy to inform you of the outstanding service I received by the crew of Shaping Energies. The communication and follow-through of their plans for a customer who needed to be "shoe-horned" into their busy schedule was very much appreciated. I was also very pleased with the thoroughness in repairing a basement entryway as well as the prep and clean-up both inside and outside my home. I have already encouraged friends and family to contact you so they <sup>too</sup> will be more energy efficient.

Many thanks from a warmer  
family from Wallingford!
