Shaping Energies, LLC

Client Testimonial

Shaping energies did a wonderful job for us. ~~I~~ I can't ~~before~~ believe how much warmer the house is: It used to take 6 cords of wood and a lot of propane to keep the house at 60°-62° - expensive and not very comfortable! Now we are using 20% less propane, 4 cords of wood and the house is toasty 68°+!

The guys who did the work were very friendly, hard-working and knowledgeable. They definitely went the extra mile to make our house warm & comfortable.
